

Authorized and established by Alef international Institute

Theater is the message of peace, friendship and brotherhood. The essence of theater is respecting ethical values and innate and superior human qualities.

The theatre as a universal language is the great opportunity for discussion between the cultures and civilizations, and the most viable means of communication for empathy and contemplation for contemporary human beings who are tired of war, violence, inequality and eager for peace.

This festival will be held in Tabriz, the center of eastern Azerbaijan province. It would be the first private international theater festival under the permission of Dramatic Arts Center of the ministry of culture of the Islamic Republic of Iran with attempts to improve the world peace.

Nader Borhani Marand

Director of the Alef International Theatre Festival

Houman Beignezhad

Head of the Alef International Theatre Festival
